CENTRAL INTELLIGENCE AGENCY  
WASHINGTON, D.C. 20505

November 29, 1977

Mr. Vernon Gardner  
6624 Kirby Court  
Falls Church, Virginia 22043

Dear Mr. Gardner:

STATINTL

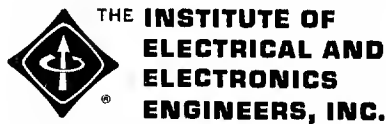

I am sorry that we are unable to provide the Agency auditorium for [REDACTED] presentation to your group. I hope that your alternate site will be satisfactory.

STATINTL

I know that [REDACTED] is looking forward to the evening. You may want to be directly in touch with him regarding arrangements for the meeting. I thank you for your interest in the Agency. I hope that the evening will be a great success.

STATINTL Sincerely,

[REDACTED]  
Associate Coordinator for  
Academic Relations and  
External Analytical Support

NORTHERN VIRGINIA  
SECTION CORRESPONDENCE

STATINTL

*Please address reply to:*

Coordinator for Academic Relations  
and External Analytical Support,  
Central Intelligence Agency,  
Washington, D.C. 20505

6624 Kirby Court,  
Falls Church, Va.  
22043  
Nov. 7, 1977

STATINTL

I was very pleased to learn from our phone conversation on Friday, Nov. 4, 1977 that your auditorium will be available for the joint meeting of the Washington and Northern Virginia Sections of the Institute of Electrical and Electronics Engineers on Wednesday, Jan. 11, 1978.

Enclosures (1) and (2) are copies of the material which I propose to submit for publication in the January 1978 issue of the National Capital Area Council Bulletin. Material for the January 1978 issue should reach the Editor, Mr. Melvin Abramovich, by Wed., Nov. 23, 1977. Note that I have included road directions for reaching the Agency. Note, also, that I have made no reference to identification, such as driver's licenses, although I could include such a requirement if you desire.

At the last count the membership of the Northern Virginia Section was 2657. The average attendance at our meetings last year was 58. The membership of the Washington Section (which includes a part of Maryland) is approximately double that of Northern Virginia. I have no immediate specifics as to their average attendance for last year. Inasmuch as the officers of these Sections attend the monthly meetings with considerable more regularity than do the non-officers, I have included Enclosure (3) which is a list of the Washington Section officers and Chapter chairman and Enclosure (4) which is a list of the Northern Virginia officers and members who attended a meeting at least once last year.

Will you please let me know if further information is needed. We are looking forward to the meeting on Jan. 11, 1978.

Enclosures:

(1) and (2): Material for  
IEEE Jan 1978 bulletin.  
(3) Washington Section  
officers and Chapter  
chairmen.  
(4) Northern Virginia Section  
officers and past attendees.

Very truly yours,

*Vernon E. Gardner*  
Vernon E. Gardner,  
Vice Chairman and Program  
Chairman.  
W: 521-6966, 6967 and 6968  
H: 533-0999.

JOINT MEETING

STATINTL

~~Chief of Electronics Branch,~~  
Office of Scientific Intelligence  
Central Intelligence Agency  
on  
Scientific Intelligence  
Wednesday, Jan. 11, 1978 - 8:00 p.m.  
Central Intelligence Agency, McLean, Va.  
Premeeting Dinner: LaMirabelle, McLean Square Center,  
McLean, Va.

For page 2 of the Jan. 1978 issue of the IEEE NCAC Bulletin:

JANUARY 11 Washington Section and Northern Virginia Section,  
Joint Meeting.

Subject: Scientific Intelligence.

STATINTL

Speaker: ~~Chief of Electronics Branch,~~  
Office of Scientific Intelligence,  
Central Intelligence Agency.

Place: Cocktails and dinner at LaMirabelle,  
6645 Old Dominion Drive, McLean Square Center,  
~~XXXXXX~~ McLean, Va. (quarter of a mile southeast of  
intersection with Chain Bridge Road.)  
Meeting at Central Intelligence Agency which may  
be reached by (a) going east southeast 2.7 miles  
on Georgetown Pike (Rt. 193) from Beltway Exit 13,  
(b) going northwest 1.7 miles on Rt. 123 from  
Chain Bridge or (c) taking Chain Bridge Road  
northeast to Georgetown Pike and turning right.

Proposed text for the January 1978 issue of the IEEE NCAC Bulletin:

SCIENTIFIC INTELLIGENCE  
SUBJECT OF JOINT MEETING

The Washington Section and the year-old Northern Virginia Section are starting the new year with a joint meeting on the subject of scientific intelligence.

Scientific intelligence had its birth in the days just before the outbreak of World War II. The British selected a tall, solemn physicist named <sup>Dr.</sup> R. V. Jones to head their first scientific intelligence effort. His success in collecting and analyzing information on German radar, navigation systems, and the V-1 and V-2 rockets contributed significantly to the British war effort.

Since ~~Dr.~~ <sup>Dr.</sup> Jones' time, scientific intelligence has grown apace with the technological arms race. Progress in limiting the expansion of new, highly sophisticated weaponry depends critically on our understanding the weapons and technology capabilities and intentions of likely opponents.

Responding to this need, the United States Intelligence Community has funded extensive research and development, largely in the electronics area, to develop new and improved methods of technical collection. The basic rules of scientific intelligence, however, remain much the same to-day as they were when Dr. Jones developed them during World War II. The speaker at the joint meeting will discuss the development of these principles ~~xxxx~~ of scientific intelligence analysis and their current application with emphasis on electronics analysis.

STATINTL

The speaker, [REDACTED] is the Chief, Electronics Branch, Office of Scientific Intelligence of the Central Intelligence Agency. He joined the Agency in 1970, after receiving a Ph.D. in Electrical Engineering from the University

(cont.)

by V E Gardner

of Illinois. He had served previously in the United States Air Force as a B-52 electronics warfare officer and staff intelligence officer.

STATINTL

[REDACTED] is a registered professional engineer and has been a member of the IEEE since 1965. He is also a member of the American Geophysical Union and the Association of Old Crows. He is an associate member of the United States National Committee of the International Union of Radio Science and the Department of Defense Advisory Group on Electron Devices.

STATINTL

[REDACTED]  
Waves in the [REDACTED]  
Atmospheric and Terrestrial Physics, a tutor~~ed~~ on electronic warfare, and numerous classified intelligence publications on radar, electronic warfare, microwaves and antenna technology.

August 31, 1977

Mr. Vernon E. Gardner  
6624 Kirby Court  
Falls Church, Virginia 22043

Dear Mr. Gardner:

Admiral Turner asked me to thank you for your invitation for him to address the Northern Virginia Institute of Electrical and Electronics Engineers. Unfortunately, his schedule during the next few months is very tight, and he is unable to accept.

I have contacted one of the Agency's senior electronics engineers who will be able to substitute for Admiral Turner if you desire [REDACTED] is a member of the Institute of Electrical and Electronics Engineers and is presently Chief of the Electronics Branch of our Office of Scientific Intelligence. He is the author of numerous intelligence publications on radar, electronics technology, and electronic warfare.

STATINTL

[REDACTED] address would be entitled "Scientific Intelligence," and would last about forty minutes. He would cover the origins of scientific and technical intelligence and the theory and practice of modern scientific intelligence analysis, with particular emphasis on electronics. He would be able to do this at your October or November meetings.

Please be in touch directly with me so that we can make precise arrangements.

STATINTL

Sincerely,

[REDACTED]

MESSAGE

Called again to ask about the use of the CIA auditorium on Jan 11 for the IEEE meeting with [redacted] speaking. I'm not sure I got it straight, but he said all the embassies get their literature and are representatives of the organization, but I didn't understand whether or not these embassy people would be invited.

Gardner wants to use our auditorium on Jan 11th at 8 pm. for this. I talked to [redacted] about it, and he says sure. [redacted] from his office will be in touch with us to inform on what we have to do to arrange it. [redacted] also suggested that an official--he thought [redacted] would be appropriate-- might make the [redacted] intros.

MEMORANDUM FOR: Brian

Mr. Gardner, Electrical and Electronics Engineers, called. He has been in touch with [REDACTED] and selected Jan 11 as the date for [REDACTED] to speak to the engineers. Mr. Gardner wants to know if he can use the auditorium for [REDACTED] to speak in. Mr. Gardner says his group will number about 200, 10 percent of which might be wives and teenagers. His office phone is 920-7101, and his home phone 533-0999.

1 July 1977

Admiral Stansfield Turner,  
Central Intelligence Agency,  
McLean, Va.  
22101

Dear Admiral Turner:

I have read with great interest the article entitled "America's 'Superspook': At Work in a Lion's Den" which appeared on page A1 of the Sunday, June 26, 1977, issue of The Washington Post and the continuation on page A14 under the heading "CIA Chief Turner: 'Working in a Sophisticated Lion's Den'".

I represent the Institute of Electrical and Electronics Engineers, Inc., the world's largest engineering society for men and women. This organization strives to enhance the quality of life through the constructive application of technology in the electrical-electronics fields ranging from acoustics and aerospace systems to ultrasonics and vehicular technology.

Our Northern Virginia Section, which now consists of 2700 members, 246 from McLean, holds monthly meetings, usually in the evenings of the second Wednesday of each month on a variety of subjects with some very interesting speakers. Our meetings are never classified and each speaker is free to choose his own subject although an orientation toward the electrical-electronics field is preferred. Most of our meetings have been held at either the Westgate Research Park in McLean or at E-Systems, Melpar Division, in Falls Church, Va.

In response to the recommendations from numerous engineer members of the Northern Virginia Section, I am writing to invite you to address our Section at a time to suit your convenience.

I shall look forward to hearing from you.

Yours truly,

*Vernon E. Gardner*
